Learning Management
Goal Setting

Carefully establishing goals will guide you to perform intentionally and succeed in online learning. Successful online learners often use the following strategies for goal setting.

Set a primary goal

01

- Write down what you value most in this degree program
- Based on your values, write down your primary goal
    - The primary goal is something you want to achieve

Define a SMART goal

02

- S-Specific
- M-Measurable
- A-Action-oriented
- R-Realistic
- T-Timely

Follow a planning process

03

- Based on your primary goal, figure out the intermediate goal then the current goal.
- Achieving the current goal will finally lead you to achieve the primary goal.
